

Email Fraud Puts Businesses at Risk

Phishing, spear phishing and malware attacks are becoming more pervasive every day. It's a global problem, and a critical risk to businesses. All it takes is one compromise to destroy consumer trust in your brand.

91% of hacking attacks begins with phishing or spear-phishing email

7,85,920 phishing websites were detected in 2019 by the Anti-Phishing Working Group (APWG)

83% of organizations have faced phishing attacks in 2019

All industries are being targeted with phishing attacks

Targets

Financial Institutions

Cloud Storage & File Hosting Sites

Webmail and Online Services

eCommerce Sites

Healthcare & Pharma

Manufacturers

Payment Services

ProDMARC stops domain spoofed phishing attacks by automating the process of DMARC email authentication. Thus, it helps you protect your customers and third parties from cyber attacks, maintain trust in your brand and improve digital communication

HOW DMARC WORKS

STEP 1

Implement email authentication standards

STEP 2

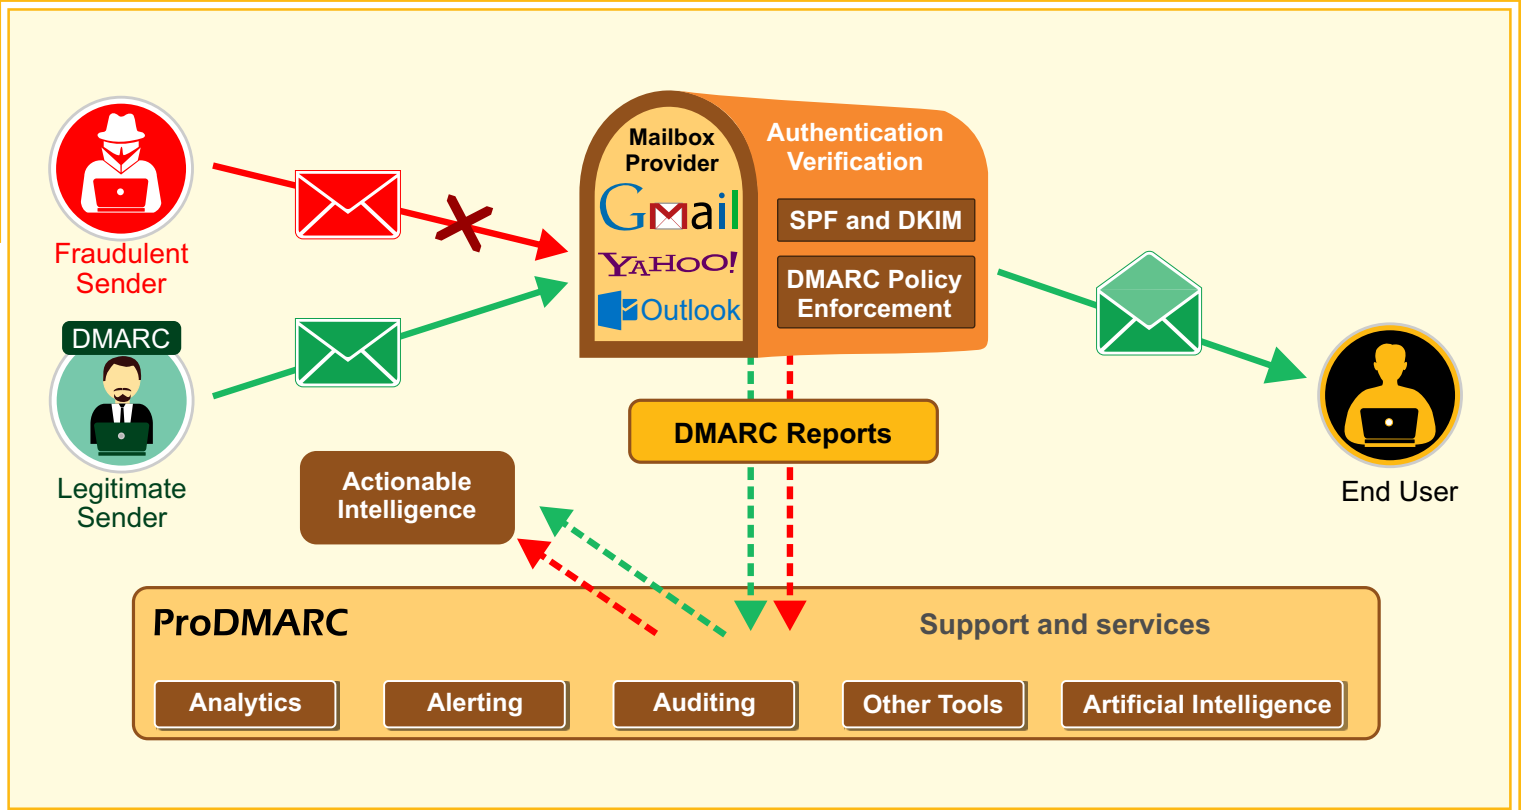

Enforce DMARC policy to reject unauthenticated email

STEP 3

Protect your end users and customers

ProDMARC Return On Security Investment

The ROSI on the investment has been outstanding for customers of ProDMARC.
